#### Discussion: Status updates

1. Laura: No word from NCA yet. This week they said they should be able to finish consulting with their lawyer within 2 weeks. Our committee work is on hold waiting for their feedback on the context for our work – processes for making decisions, granting event permits, etc. Rob: Some surveying activity has started but it may not be for the park construction. Tanya: I heard from some original neighbors who intend to boycott the park opening because the park was originally promised to be bigger.
2. Jody: Timing for construction to finish? Matt: Getting contractor bids now with landscape contractors they have used elsewhere. In next 3 weeks should have definitive timeline. Should be quick construction and planting process. Probably a 3-week timeline for construction. Hopefully to finish end of May/start of June. Light poles behind apartments have been backordered for 3 months, so there may be unanticipated delays. Next design committee meeting will be about the plantings.

Next meeting: Monday, April 12, 6:00 p.m. We will send a calendar invite, meeting link, and agenda.
